**Pre -Primary Holidays Homework 2023-24**

Dear Parents,

The holidays have begun and it is time to have fun! The summer break is the most enviable part of school life and we want that the children have an enriching experience this summer.

It is time to rejuvenate with '**Summer Holiday Homework**' comprising of mindfulness and reflective activities. To make this break fruitful create an atmosphere of purposeful living and instill a value for time and effort towards even the smallest things, be it the simple task of caring for plants, or laying the table for dinner. Equip your child with basic life skills and encourage them to help you around the house.

As parents, it is important to invest your time with them now.

What we learn with joy, we never forget!

- **WORD SEARCH GAME:** Word search is a great game to improve the observation skills, concentration and memory besides accomplishing the long- term aim in building the vocabulary of the child. Summer break can be utilized to play word search with the child on a regular basis. A paragraph from magazine , newspapers, story book etc should be selected each day and the whole family could get together to search a pre decided set of words mentioned in next play plus primer book- 1 page no.- 4
- Children are like sponges- they absorb what they are being told. Phonic sounds had been introduced in class Preschool for learning how to read. Let us recapitulate the same through this video link on phonic sounds to make the child's foundation stronger to enhance his/her reading skills.

## Tips to remember-

- While teaching phonics, focus on the sounds that each letter makes, instead of the name of the letter. While some letter names automatically translate into the sound the letter makes, such as “b” says /b/. As the child becomes more confident in his sounds, the letter names will quickly come. So let’s learn phonics in a fun way.

**Seed Hunt :**

### Seed Hunt

Let's investigate how many seeds are in some of the fruits and vegetables we eat.  
Place seeds on the count (1 - 20) to determine which food has the most seeds and which has the least.
